Silver Shine
P-401

Black
110-14

Gold
MB-12

Silver
MB-56

CAUTION: Colors on this card may change over time due to uncontrollable fading and aging of pigments. Slight color variations may exist between this representation and actual application due to variations in hardeners used and substrates applied to. We recommend our complete product system including hardeners formulated by us to give you optimum results. Any colors not represented on this chart can be custom color matched into transparents, translucents, pearls, opaques, metallics or special effects. Colors represented on this chart and any custom colors are available in quarts and gallons only. Call us for the representative nearest you. Rev. 8/93
